1. REVIVE

Intraceuticals delivers innovative and results driven professional skincare that consistently exceeds expectations.

After years of research, the biochemistry team from Intraceuticals combined medical and cosmetic science to develop a revolutionary professional skincare brand.

Intraceuticals is a unique line of spa treatments and complementary skin care products based on innovative and distinctive technology. Intraceuticals Clinic Treatments, the brand's signature innovation, use oxygen under pressure and cutting edge hyaluronic acid technology to promote the delivery of specially formulated serums to the skin. These specialised treatments and accompanying at home products target the most common skin issues with visible, clinical results and dramatic accumulative effects.
